

ProtoLAB design and build workshop 2024/ CIRCULARITY

ProtoLAB is a design and build workshop Coordinated by Wroclaw University, with cooperation of AYBU and Alicante universities for this year.

In ProtoLAB students of architecture and related fields have a unique opportunity to design and then build architectural structures. The workshop is divided into an online design and onsite manufacturing process.

The online design workshop will take place on 08-15.07.2024. Participants will work in international groups on one of the given design tasks. The design part will be complemented by lectures on design, production methods, material characteristics, sustainable design and much more.

The production phase will take place between 22-31.07.2024, in an old tram depot transferred into students' activity spot Czasoprzestrzeń (eng. Timespace) in Wroclaw, Poland. Participants will learn how to effectively and safely use professional construction tools and build structures designed during the first part of the workshop. The design and construction workshop will be led by an international team of distinguished experts in design and construction technology.

The participation costs for students are:

Online design workshop:

08.07-15.07.2024 – 100 €

On-site construction workshops:

22.07-31.07.2024 – 170 €
