Horizon, Danida and other non-Erasmus projects as recorded in AYBU's institutional project registry.

23 TÜBİTAK research grants and further national grants (TENMAK, TÜSEB, TAGEM, YTB), including TÜBİTAK projects on a virtual power plant platform for smart distribution grids (119C128), cube-satellite

communication infrastructure for future smart cities (120N778), event-camera computer vision (123E693) and sustainability of metropolitan municipal services (223K606) — as stated in AYBU's 2026 CoVE PIF.

11. Institutional added value

- A multidisciplinary university: business and information systems, engineering, health, law, political and social sciences and vocational education in one legal entity and one OID
- Seventeen coordinated Erasmus+ projects, so partners work with a team that knows the reporting and lump-sum rules from the coordinator's side
- A location in the capital city, with documented project cooperation with ministries' provincial directorates, metropolitan and district municipalities and chambers
- Direct access to target groups: 26,583 students including a large international community, vocational learners, adult learners and alumni
- Founding partner of Teknopark Ankara and owner of a Technology Transfer Office for links with technology companies

12. Potential contributions to EU projects

Contributions described here are potential contributions based on verified institutional capacity; they become commitments only in a signed proposal. Named experts are proposed on the basis of their published work and their participation in a given proposal is subject to their confirmation.

- Training needs assessments and surveys with validated instruments
- Curriculum design, competence frameworks and micro-credentials
- Digital learning materials, platforms and AI-supported tools
- Pilot implementation with students, vocational learners, adult learners and public or private partners in Ankara
- Monitoring and evaluation frameworks with quantitative impact assessment
- Research reports and policy recommendations
- Train-the-trainer programmes, multiplier events and dissemination in Türkiye
- Project coordination, quality assurance and financial reporting

13. Project management capacity

EU projects at AYBU are run by academic project teams with support from the Business School's projects office and the Competitiveness and Innovation Research Centre (REKMER). Financial administration follows Turkish public financial management and control legislation (Law No. 5018); EU grants are kept in dedicated project accounts and the university is subject to external audit by the Turkish Court of Accounts. In the Commission's project database AYBU appears in 28 Erasmus+ cooperation, policy and Jean Monnet projects from call years 2014–2026, 17 of them as coordinator; 9 are running today.

14. Quality assurance

For each project AYBU proposes a quality plan with internal peer review of deliverables, milestone monitoring and partner feedback surveys. The university operates an institutional quality management system under the national Higher Education Quality Council framework, and Business School staff include an accredited external evaluator of that Council.

15. Dissemination and communication capacity

AYBU disseminates through its institutional website and faculty pages, official social media accounts, a community of more than 26 000 students and about 2 600 staff, its partner universities and its links with ministries, municipalities, chambers and Teknopark Ankara. Multiplier events and training activities can be hosted on its Ankara campuses, and online courses can be delivered through the Distance Education Research Centre.

16. Sustainability and exploitation capacity

Results can be sustained through courses in degree programmes, certificate programmes of the Continuing Education Centre, online delivery by the Distance Education Research Centre and follow-up funding from national programmes such as TÜBİTAK. Open publication of materials is the default.
