

Dear students,

I congratulate you for your superior effort in your journey that brought you to AYBU. Welcome to our AYBU family which works with excitement for the future and looks tomorrow with hope.

As an administration, we cooperate in defending, security, and such like engineering and technical fields the center of space aviation TUSAS, in medicine and health sciences Bilkent City Hospital, in law field like Law Academy where the places in Ankara thus we aim to create a research-practice environment that produces information with analytical and critical thinking and cares about criticism. In this sense, we see you as unique diamonds which are expected to be discovered and believe that each of you will bring different values and harmony to our university.

Our precious students,

Today we have to fight with the world to succeed. Our university prepares their students for this competition with native and foreign academicians who have international experience in all field, wide fan of students from different countries, multilingual education, social opportunities cheerful administrative staff.

AYBU that becomes prominent due to giving importance to lifelong learning take form as a "postgraduate education center" and wishes become a university that is preferred from every edge of the world.

With the motto of "*information, will and speed*" our students are our the most important power source that embrace always quality institution culture. Don't forget that our university is always by your side with all opportunities in the way which goes to your goals.

I wish all of you successful and happy education process, and I hope 2022-2023 academic year bring blessing to our nation.

Greetings and best regards.

Prof. Dr. İbrahim AYDINLI

Rector
