

SPEAKING EXAM PROCEDURE

1. Please check your exam time on the list shared on the website.
2. The exam will be done on Perculus+ in your AYBUZEM class.
3. We recommend using Google Chrome browser for the speaking exam. You can take the exam on a computer or a mobile device.
4. Make sure that you do NOT enter the exam room before your exam time. If you enter the room at the exam time, and another student is having an exam, please leave the room and go back in after 3 minutes.
5. At the start of the exam, the instructor will check your ID and write the following message into the chat box:
"I allow the examiners to record my speaking exam over AYBUZEM to be used only during the objection process if any need arises.
You will be able to take the speaking exam whether you accept it or not.
I read it, and I accept it.
I read it, and I don't accept it.
Please write your answer in the chat box."
6. After you write your answer, the exam will start.
7. In the second part of the exam, the instructor will write the question in the chat box. You can take notes in this part, but you need to show the instructor that you are using a blank paper before taking any notes.
8. After the exam is finished, the instructor will ask you to leave the room.
